ATTENTION: [REDACTED]

Chief, Production Group

SUBJECT:

Exploitation of Sovbloc Scientific and  
Technical Literature

FOIAb3b1

REFERENCE:

Memorandum for D/SI from [REDACTED] Above  
Subject, dated 20 March 1969

FOIAb3b1 1. OSI has assessed the impact of the loss of ATD abstracts and finds the loss would hinder significantly our intelligence analysis and production. The loss of abstracts would be felt most severely in our current priority areas where timeliness is important. OSI will need an expanded [REDACTED] effort to provide on a timely basis a selected portion of those abstracts being done by ATD.

FOIAb3b1 2. As [REDACTED] has recognized, certain ATD abstracts now being prepared are marginal to our needs. OSI will provide guidance necessary to eliminate marginal abstracts from the expanded [REDACTED] program. OSI will prepare a list of those FOIAb3b1 journals and substantive areas critical to the performance of each division's mission. This list will enable [REDACTED] to fulfill our needs by processing fewer abstracts than ATD is doing now.
